Athletics in Our School.

Last year Mr. Lockey, our principal, who is himself interested in athletics, encouraged the sports of our school. He not only made in chapel many interesting and encouraging talks to the boys and girls on athletics, but he devised plans for raising money to have clay put on the base-

ment and to make the two tennis courts on the south side of the grounds.

Last spring we organized a baseball team. We at first had practice games with the University. Then we had three games with Daytona, as we had challenged them at the opening of the season. We won all three games.

At the close of school last year we had a tennis tournament for the boys and one for the girls. There were about ten boys who entered the tournament for the boys, and about the same number of girls entered the girls' tournament. Tom Hays won the championship of the boys and Edith Bond won the championship of the girls.

This year we have played football a little and tennis a good deal, but we have not had any matches so far. We expect, however, to have a few games of baseball with Daytona in the spring, and a tennis tournament at the close of school.

Last year at this time there had been enrolled in the school 232 pupils. The enrollment shows a considerable growth this year, for instead of 232 we have 252—an increase of just 20. At this rate of increase, within a few years it will be necessary to enlarge the school building. At some future time we shall try to tell from what source this increase comes.

Public School Improvement Society.

There are probably persons in DeLand who do not understand the particulars of this society and its motives, and who should be informed that it is for the purpose of improving the public school in whatever way presents itself. At the time of its organization in October, Mrs. G. A. Dreka was elected president, Mr. A. O. Botts vice-president, and Mrs. J. E. Coen secretary. There is a good attendance, which is gradually increasing, at the meetings, which are held in the chapel after school on the second Tuesday of every month.

The suggestion of securing a good library has already been acted upon. A good little sum is also being realized from the initiation fee of 25 cents and from the selling of buttons at 15 cents each. These buttons bear the letters P.S.I.S. Other improvements which might be suggested are: good pictures for the walls of the different rooms, and seats to be placed under the trees on the school grounds.

MARY COX.

The Chapel Exercises.

On Monday mornings the pupils of the DeLand public school, instead of marching directly to their rooms, as is their custom on other mornings of the week, come together in the chapel and there have the devotional exercises. This chapel, though probably intended to be used for this purpose, has never been supplied with seats; therefore, the pupils are obliged to remain standing during the entire exercises.

These chapel exercises are primarily devotional and consist of the reading of the Scriptures, the repeating of the Lord's Prayer by the pupils, and of singing, which, when heartily entered into, is thoroughly enjoyed by all. The remaining time is employed in the principal, either in arousing interest in baseball, tennis and athletic sports, or in giving a lesson which he thinks will be especially profitable one to the pupils, and, although the exercises are very short, on the whole exceedingly interesting and profitable.

IRENE ALCOOT.

At the School Building. The public school was of DeLand gave a further way, heated the year. We say "in the house was never until this winter, which was also set up in the winter, often to school on the whole would be the

rooms on the south side are not sufficiently heated even yet.

But on the whole the house is a great deal better heated than before the new furnace was in operation.

BESSIE COULTER.

EIGHTH GRADE.

Last month the general average for the 8th grade in all the studies was: Girls, 84 per cent; boys, 85 per cent.

There are 2 boys and 9 girls in the 8th grade now, but both the boys will be out of school after this month. If education counts for anything, who is getting the better equipment for life? Boys, don't leave school too soon.

If you wish to challenge the "biggest and best looking" grade in school for a championship game of tennis, just remember the Eighth is always ready.

When nine big 8th grade girls try to chaperone two little 8th grade boys, it is like two old hens with only one little chicken.

Eleven "rattlers with a button" is the 8th grade, and don't you forget it! The total enrollment of pupils in the 8th grade is 9 girls and 2 boys. No new pupils have been enrolled the last month.

Mary Sommers has been neither tardy nor absent the last month.

School let out on Monday so that the pupils could go to the circus. No examinations this week! Hurray! That gives us a good taste in our mouths to begin the holidays with.

SEVENTH GRADE.

The number of pupils enrolled in this grade is 26, there being 10 boys and 16 girls. During the month we have enrolled 2 new students in the class—Rhodes Herndon of Georgetown, Ky., and Annie Strickland of this place.

The following received marks of absence last month: Mabel Dade, Katharine Sommers, George Bradley, Francis Miller, Leroy Snyder and Carl Walker.

The names mentioned below are those who won stars of merit on their reports: Mabel Dade and George Bradley. There seems room for better work among both boys and girls. Rhodes Herndon is a very good acquisition to our football team.

In the afternoon one of the corners between the school house and the College Arms seems to be a popular resting place for two of our rising young men.

Vacation is drawing near and all pupils are rejoicing to know that examination will not be held until after the holidays.

SIXTH GRADE.

Joe Allen, on account of sickness, was not at school last Thursday.

Gordon Haynes was absent several days last week.

We are sorry to hear that Will Page is going to leave school. We shall miss him very much.

The ones in this grade who received stars last month were: Bessie Hamilton and Raymond Dreka; that is, they received over 90 in all their studies and deportment.

Seaborn McCrory was absent a few days last week.

This grade had a spelling match last Friday. Will Page and Bessie Hamilton chose sides. Will's side won.

Only 21 of the 36 pupils enrolled were present Monday morning. We wonder why so many were absent?

FIFTH GRADE.

Last month Ruth Hon received a star for having an average of 90 in all her lessons in this grade.

There are 20 girls and 14 boys in the 5th grade.

Last Friday we had quite an exciting spelling match between the boys and girls. The girls beat the boys, but the boys do not expect them to do it again.

The new members of the 5th grade are Margaret Westerman and Susan Herndon.

FOURTH GRADE.

Miss Eccles now has, during the forenoon, 67 pupils in her room. Sometimes we do not have time for all our recitations. We would like to have another teacher as a Christmas present for the 4th grade.

Many of our class are wearing the P.S.I.S. buttons.

THIRD GRADE.

On account of the illness of Miss Erhart's grandmother, she has been unable to teach for nearly two weeks; part of the time her sister, Miss Marie, taught in her place, and one afternoon Mr. Lockey taught the 3rd grade. There are 16 girls and 18 boys in the class.

Lawrence and George Howard, who were in our grade for a short time, have gone back to Daytona.

Mrs. Paxton is teaching until Miss Erhart returns.

SECOND GRADE.

We have had 35 children in our room this year. Two have moved away, so now we have 33.

Five children got stars in November. They were: Albert Green, Ralph Mann, Wiley Walker, Lake Thomson and Lena Lofquist. Miss Green spelled down the 2nd last Friday.

A WORTHY OBJECT.

An Address to the People of DeLand in Behalf of the Public School Library.

To the People of DeLand:

It is the aim of the Public School Improvement Society to establish a library in the DeLand public school. Would you like to help establish this library? Do you know that by lending a hand, by contributing a single book you may influence for the better the life of many a boy and girl? And do you know that if every person who answers these questions in the affirmative would contribute to this cause, we should have, to start with, several hundred books? And do you know that if you do answer these questions in the affirmative, and then let the matter slip from your memory, the children of DeLand will be the losers, and that you will be the weaker for your failure to act out a good impulse?

The Public School Improvement Society would like to see every parent, and every public-spirited citizen, and every child in DeLand, and every friend of DeLand aid in the cause. You may help by contributing money or books. If you will contribute one or more books, use the printed list below to guide you in selecting suitable ones. The list, though prepared with considerable care by a committee appointed by the Society, does not, by any means, contain all the books suitable for children. Accordingly, if you have in mind a book which does not appear in the list, and which you know to be suitable for a public school library, by all means let us have it. And inasmuch as the binding and the general appearance of books have an influence in the formation of a child's character, it is hoped that the books which you may contribute may be well bound and printed in clear type and on good paper.

Any book which you may contribute, you may send, if you will, to the Public School or leave with Mrs. G. A. Dreka, the President of the Public School improvement Society or with the Secretary, Mrs. J. E. Coen.

FAVORITE FAMILY REMEDY.

Frequently accidents occur in the household, which cause burns, cuts, sprains and bruises for use; in such cases, Ballard's Snow Liniment is sure many years ago the common family all.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of

Chas. H. Fletcher

and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

STARTLING EVIDENCE.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland Benterville, Va. serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by W. A. Allen and Geo. W. Fisher, druggists. Trial bottles free, regular sizes 50c, and \$1.00.

HE FOUND A CURE.

R. H. Foster, 318 S. 2d Street, Salt Lake City, writes: "I have been bothered with dyspepsia or indigestion for 21 years, have tried many doctors without relief, but I have found a cure in Herbine. I recommend it to all my friends, who are afflicted that way, and it is curing them, too. 50c at all druggists."

More Than a

\$ MILLION DOLLARS \$

of Florida Capital guarantees this pure vegetable remedy to cure or money back

Cures:

Catarrhal affection of the nasal passages, bronchial tubes, lungs, kidneys, bladder and stomach. Also

Nervous

Indigestion

Consumption, or any disease of the mucous membranes.

As a Tonic

It gives appetite, builds up the system, banishes that tired feeling, makes the weak strong and happy.
